

Earnings Call Transcript (Q1 2026)

Operator: Welcome to the First Quarter 2026 Earnings Call for RAG and Riches Financial Inc.

CEO: Revenue for the quarter increased 9% year-over-year. Growth was strongest within our Fraud Analytics business.

Analyst: What contributed to slower growth compared with fiscal 2025?

CEO: Small business customers remain cautious about discretionary technology spending. We are also seeing longer procurement cycles among regional banking clients.

Analyst: Can you discuss regulatory concerns?

Chief Risk Officer: Several proposed regulations may require greater transparency in AI-driven credit decisions. While we support responsible AI practices, compliance costs could increase.

Analyst: What is your outlook for cybersecurity spending?

CEO: Cybersecurity remains a strategic priority. We expect spending to increase by approximately 12% during 2026 due to evolving threat activity.

Analyst: What business segment has the strongest growth potential?

CEO: Fraud Analytics continues to outperform expectations and remains our fastest-growing segment.
