

SEC Filing (10-K Excerpt #2)

Company: RAG and Riches Financial Inc Fiscal Year Ended: December 31, 2025

Segment Performance

The Payments segment generated revenue of \$420 million, an increase of 18% from the prior year.

The Lending segment generated revenue of \$250 million, an increase of 8%.

The Fraud Analytics segment generated revenue of \$150 million, an increase of 32%.

Management attributes growth in Fraud Analytics to increased adoption of AI-powered fraud detection products by regional banks.

Liquidity and Capital Resources

Cash and cash equivalents totaled \$310 million as of December 31, 2025.

The company repaid \$50 million of long-term debt during the fiscal year.

Management believes existing cash balances and operating cash flows will be sufficient to fund operations for at least the next 24 months.

Cybersecurity

During August 2025, the company detected unauthorized access attempts targeting internal development systems.

No customer financial data was compromised.

The company invested approximately \$18 million in cybersecurity infrastructure improvements following the incident.

Forward-Looking Statements

Management expects regulatory scrutiny of AI-powered lending systems to increase during 2026.

Future compliance requirements may increase operating expenses and slow product deployment cycles.
