

SEC Filing (10-K Excerpt)

Company: RAG and Riches Financial Inc
Fiscal Year Ended: December 31, 2025

Business Overview

RAG and Riches Financial Inc provides cloud-based payment processing solutions to small and medium-sized businesses across North America. The company derives revenue from transaction fees, subscription services, and value-added analytics products.

Financial Highlights

Total revenue for fiscal year 2025 was \$820 million, representing a 14% increase compared to \$720 million in fiscal year 2024.

Subscription revenue increased by 22% due to higher adoption of the company's analytics platform.

Operating expenses increased by 18%, primarily driven by investments in artificial intelligence initiatives and cybersecurity enhancements.

Net income for fiscal year 2025 was \$92 million compared to \$88 million in fiscal year 2024.

Risk Factors

Our future growth may be adversely affected by increased competition from emerging fintech providers.

Cybersecurity incidents could disrupt our services and damage our reputation.

Changes in government regulations related to consumer financial data privacy may increase compliance costs.

Management Discussion and Analysis

Management expects revenue growth to moderate during fiscal year 2026 due to increased competition and macroeconomic uncertainty affecting small business spending.

The company plans to continue investing in AI-powered fraud detection capabilities despite short-term pressure on operating margins.
